Amazing experience every time. Its nice to have a place my kids can be comfortable and have the adults talk to them when they are uncomfortable or nervous during these appointments. The staff is great and the Dentist is amazing! The pond with fish and turtles, grass lawn area seen through in the back huge windows, video game room, clean and quiet, Teeth Characters on the wall I am so glad we found this office. Definitely worth the 45 min drive every time! Both my kids like him and the assistant I make sure we have the same one every time so that my children can be comfortable and familiar. VERY KID FRIENDLY!!!

★★★★★ by Mia Tannous on 2018-05-12

My oldest daughter who's 8 hasn't been to a dentist in 3 years simply because she's very worried and anxious to go to a dentist. After visiting Dr LaTulippe office her fear is gone. He's an awesome dentist, when we came home after her first visit she told her sister how much she liked the dentist because he's her friend like he told her. All my 4 kids are going there now. His staff is very professional and friendly. They always call in case of cancellations to get my kids to be seen sooner. Dr LaTulippe calls after every appointment to check on my kids. I recommend Miles of Smiles to all my friends who have kids.

To be honest, I was nervous to bring my daughter back after finding the reviews online. But my daughter went for her first work appointment yesterday & the dr & staff were incredible. From working at a peds dentist prior I know what to expect & they made my little one feel so comfortable. Even the call later on in the evening to check on her was comforting. Nothing bad to say. It was a great experience.

★★★★★ by Javier Alston on 2018-02-09

my 6 year old had an appointment he's been to a dentist before but it was his first time here. I must say it was the cutest office I've been to. They have a game room for the kids in the waiting room which saves you a headache of being interrupted while filling out paperwork. Speaking of paperwork , it was pretty much a breeze with their electronic system. Everything was on an iPad. The hygienist was so sweet with him and gave him a book to read after his cleaning . The Dr. was very friendly and after his check up they gave him a token to get a toy . Very good first experience and I'm glad we came.

★★★★★ by Julyana Loessin on 2018-02-08

You know you have chosen the best doctor and staff when your 7 year old gets excited to go see the dentist. She had six cavities that needed addressed, but one after the other she was excited to keep going back

★★★★★ by Jordan Ackerman on 2017-12-01

Excellent customer service from the Dental assistant and Dr. LaTulippe. I wish as an adult I could go there to. Really makes the children feel comfortable. Only thing that bothered me a bit was the lady at the front desk to your right as I walked in. She seemed very overwhelmed and when I was asking about the next appointment she asked me to stop talking so she could finish putting in whatever information she was working on and stated she could only do 1 thing at a time. I worked in medical offices before and multitasking is very important and as is customer service. I would never tell a patient to stop talking. That should be addressed.

★★★★★ by Anon on 2016-07-01

The front desk ladies are always pleasant and welcoming. Dr. LaTulippe called me himself after my child's appointment to see how they were doing and that blew me away. During the appointment he was funny, comfortable and reassuring to my child. The lady assisting him was great and a natural at her job. The only negative about the office is a hygienist/assistant who, I felt, was rude and very short with my child who was scared. I'm not sure of her name, but she's blonde and mentioned a vacation to Hawaii. She lacked patience and understanding with children; maybe a pediatric dental office isn't best fit for her. Overall, love this office and the dr!

Dr. LaTulippe is amazing!! He is kind, funny and his bedside manner is great. My daughter was scared going in, due to a previous bad experience with a different dentist and they made her feel relaxed and she loves it there, and loves the doctor. She has had a few teeth worked on in the past few weeks and he did an amazing job with her.. She is actually excited to go to her next appt. I can't say enough good things about him. I highly recommend him!! The office is nice and clean, and the staff is great too.

★★★★★ by Michayla Whittiemore on 2016-05-03

★★★★★ by Finn Anderson on 2016-04-29

The dentist and technicians were great and so gentle. It just would have been nice if they had a movie on the ceiling for my 5 year old to watch and be distracted like they do at other pediatric dentists. Also, he was so excited for the video games in the waiting room but usually only one of them works. But we do like the dentist and techs. They did a great job on his tooth so that's what counts.

I loved the entire office and the staff. You all made us feel welcomed and I could tell how much you guys loved your job and wanted to make my son and me feel comfortable. I was glad that you guys showed everything to my son so he wouldn't be afraid. I was also thrilled that I was welcomed to stay with my son the entire time. No questions asked! I have already recommended you to two other parents and will continue to do so!

★★★★★ by Daniel Korr on 2015-09-01

Overall we had a great experience! My kids love coming to this office because they have a video game room while they wait and after their treatment they get a coin to use in the "prize" machine where they can pick out their own special prize. The staff is great! Everyone here is really nice and the dentist is wonderful. He has a great team to help make things run smoothly which I appreciate. The only issue we had was having to wait almost 30 minutes past our scheduled appointment due to another patient that showed up late. However, despite the wait, once we were called back, the dentist managed to get us in and out quickly and we were still able to make it to our next appointment on time. I would recommend this office to anyone with kids. The moment they walk in to this office, they will want to come back!!

Very displeased with the unpleasant attitude of the long, curly, dark haired front desk woman (I cannot recall her name). She seemed very put off by my questions and didn't seem to have the time or want to put in the effort to help me figure out what the best payment option for child's dental care would be. She never smiles when we come to the office, which I feel that smiling should be a requirement of the person who is the first contact with everyone who walks through the door, and she always seems to be very busy at the time to look away from her computer to properly greet us and answer any questions/concerns we may have. In my honest opinion, she seems to act like we are not good enough for her time. She treats us like we shouldn't be coming there or that we don't pay our bills, when in fact we pay in for every procedure our child has had and have paid LOTS of our hard-earned money to keep our child's teeth in tip-top shape. We keep coming back however because we truly love Dr. LaTulippe and the rest of his staff. We have not had any other bad experiences with any of the staff except for her. Although, we might be finding another dental provider if she continues to treat us like we are not good enough to be paying clients there.

★★★★☆ by Anon on 2014-01-29

This office was not our first choice. When I called to make the appointment, the front desk was not friendly and I felt rushed. When we arrived (myself and 3 kids) at the office, we were not greeted by the 2 office personnel seated at the front entrance. The dental hygienists did a great job and took care to speak to the children. The dentist was knowledgeable and courteous to me and the children. We also had to return for fillings and the dental assistant was the best of all. We received a follow-up call from the doctor to check on the fillings which was also a plus. Dental insurance is complicated and it is a plus for me when the front office takes the time to explain the costs and the coverage. Our deductible is \$50 and we still had to pay \$120 for 2 fillings. We will follow-up with the insurance. Our review is based on "do for others what you would have them do for you." Working above your pay grade makes your boss look great and your work environment pleasant. I would recommend Miles of Smiles but would mention that the front office is lacking. PS-the office is clean and beautiful.

The entire staff were so welcoming to my mother, my child, and myself. They were very soft spoken around a little boy who was more nervous then he showed, and to a mother who was worried about her son. During the procedure, Dr. LaTulippe was very soft spoken and very caring. He explained everything to my son, calmed his nerves, and continued to tell him what a great job my son was doing. My son had a wonderful experience in what quite honestly could have been very traumatic. We even received a phone call from Dr. LaTulippe, and even though we were not home to receive it, it definitely showed how much he and his staff care about their patients. Thank you!!

I have been to Dr. L once with two kids - the first dental visit for both children. I found this to be an overall very professional and thorough service. The hygienist explained how well my children were brushing their teeth, spots they were missing and why with their crowded teeth that flossing is so important. The hygienist was careful with them, offered them sunglasses for the bright exam light and I was able to sit right there in case I needed to help explain anything to my kids. Additionally, one of the children needed a small cavity filled. Dr. L explained everything he was doing as he was doing it, had a hand signal if there was any pain, and when a shot was needed, the child never saw the needle (thank goodness!!!) and never uttered a peep as it was being administered (due to numbing the area of the injection first). Dr. L was extremely nice, patient and answered any questions my children had. The staff were very personable and friendly as well as professional. We will happily go back for future services and appointments.

★★★☆☆ by Anon on 2013-06-25

The experience that I encountered with my daughter was very unprofessional. Dr. LaTulippe had done a filling on one of her molar teeth. It was fine at first but then

within a week it started to bother her. So I called to make an appointment to have it checked. He looked at her tooth for no more than 10 mins and on top of that he was going to charge me a \$60 office visit for "his time". I felt that if he's the one that put the filling in then he should be courteous enough to re-check that area for no charge? Seeing that I did pay him over 175\$ for the filling to be done. He had no compassion over me wanting it to be looked at from the start to make sure it was alright? He was only concerned about the money he felt he deserved for his time :(

Front desk and Dr. LaTulippe is very nice and takes good care of my child. He is really good with kids! The precheck and cleaning before the dr is nerve-racking. The nurse/assistant makes you feel guilty every single time. We brush 3 times a day and floss every night, my son don't eat much candy or drinks soda, but he still gets cavities. He is just like me, "heritaged" the bad teeth. I'm already nervous about the next visit, because I know I'll hear it: "You see this mom? It's cavity. You have to pay more attention. You see it? Right here?" They make you feel like the worst mother ever, every single time. I am trying my best. Trust me, I don't want him either to have bad teeth plus spending hundreds of dollars every time we go there.

WOW! I brought my daughter in and the X-ray showed some large cavities in her adult molars. A few days ago, I brought her in to have the first of the cavities filled. Its my daughter's first time for anything like this. I watched every moment of the procedure. I can't believe how my daughter never felt any discomfort. None. I think it was a combination of Dr. LaTulippe's ability to talk to her and the slide of hand that he has. He and his assistant worked in unison as they create an environment that is pleasing to both my daughter and I. Thanks guys.

My daughter was very nervous, since this was her first real procedure. Dr. LaTullipe did a great job calming her down and talking her through it all. He also called later that evening to check on her, which I appreciated.

We had a positive experience in having a tooth pulled with Dr. LaTulippe. He and and the staff are very personable and interacted well with my son.

Dr LaTulippe and his staff are wonderful. My son has Down syndrome and has a tough time shedding his teeth. This week he had to have 5 extracted at one time. He did great and is eating with no problem. Dr LaTulippe called the same evening to check on him , that was a first.

Incredible experience. The video games, fish and painted walls were great but the best part was the dentist. He was so amazing and called a few hours later to make sure my son was ok. We ended our visit getting a t-shirt and I was ultra impressed.

Front desk can be a little friendlier.

★☆☆☆☆ by Anon on 2012-12-19

I was referred by website I wanted a Pediatric Dentist. My son has had previous dental visits in another state so we were familiar with the routine. He has always had a positive experience until now. The front desk staff and the assistant were courteous, professional and compassionate to my son and myself (they get five stars!). Dr. Latulippe was another story, he focused all his attention on me and not my son, which was very uncomfortable. My son was in discomfort with his exam, he acted not in concern but, annoyed. He then snapped at his assistant in front of me. He was rude and extremely unprofessional. He did not treat my son in a way that a Pediatric Dentist should with a caring demeanor. After talking to some other mothers at the gym, they had similar stories (unprofessional behavior towards them and his staff along with the insensitivity to their children's pain. They never took their children back to his office again. I will not ever refer anyone to him and will do more research in finding a Pediatric Dentist for the next visit.

Dr.L is the best and his staff is friendly and caring .We drive from out of state just to see him . Our three sons love going to the dentist.

★★★★★ by Jeremy Hill on 2012-12-08

Dr. LaTulippe and his staff are so nice. Both my boys love going there. I would recommend them anytime.

Please check with another dentist before getting work done if you have any reservations. I found out the hard way and my children had to suffer. Please also don't let this dentist feed your children artificially sweetened candy. It has been 3 yrs. since our last visit and we haven't needed anything but a regular cleaning even without the use of fluoride.

★★★★★ by Tracy Gray on 2012-10-23

Dr. Latulippe and his staff were wonderful. My daughter does not do well with physicians, she received a filling. Dr. Latulippe called my daughter later that evening to check on her.

My son was scared to go to the dentist and I showed him the office and how it was set up through the website. Now for anyone getting a tooth pulled is scary but my 7 year old had to have to teeth pulled and he did amazing and it was not so traumatic because the doctor explained everything he was going to do and everyone was so kind there. They let my other son push the button for his brothers xray. Wish I had a dentist office like this when I was little. Thank you to all of you for making this visit not as bad as it could of been getting teeth pulled. I think all parents should take their kids here.

Dr. Louis is awesome with kids and the parents too! :) He and the staff are professional yet make you feel right at home. Never a ridiculous amount of people waiting and the kids are entertained while you wait. If your appointment is at 2 then your in the chair at 2! He works fast and the quality of work is outstanding!

I want to thank Dr. LaTulippe and Ms. Danielle for catering to the special needs of my autistic child. They took their time with her and explained every little detail to her to help her feel more comfortable.

★★★★★ by Kelsey Taus on 2012-04-19

Everyone was great at this visit. In the past, I was not pleased with the front girls, but they are a lot better now and more friendly. Great work! I just wish that you could bill patients instead of collecting up front. I had a situation that I was not really allowed to spend any money until I closed on my house and I told the check out receptionist this and if I could be billed and she pretty much said oh well and collected my money. That was the only thing that I did not like at this visit. Other than that, all the other moments were great.

My daughter needed a repair to a cracked filling, we thought. Dr. LaTulippe saw the problem and fixed it reight away. He and his staff were kind and supportive. We needed this last minute fix in order for my daughter to get braces. The folks at Dr. LaTulippe's office stuck around after quitting time to make sure everything was complete and in top form.
